PRELIMINARY AMENDMENT UNDER 37 CFR 1.115

In accordance with 37 CFR 1.115, Applicant requests that the above-identified application, with the claims as elected in the previously submitted Response under 37 CFR 1.111, be amended as follows:

In the Claims:

Kindly insert the following claims.

--55. A programmable infusion system for providing medication to a living body, comprising:
means, implanted in the body, for pumping a controlled amount of medication into the living body,
implanted means, coupled to the pumping means, for activating the pumping means to effect pumping, and
telemetry means, coupled to the activating means, for communicating commands which induce pumping.--

--56. A programmable infusion system, as in claim 55, further comprising:

implanted control means for disallowing the pumping of the pumping means when commands for pumping exceed a preset limit.--
